

Enterprise Banking™

At **Chain Bridge Bank**, we offer all the products and services of a large institutional bank.

We just do so with a slightly old-fashioned sense of personal customer service.

Chain Bridge Bank

Enterprise Banking™

Remote Deposit Capture: *ChainLink*™ remote deposit capture is powerful but simple-to-use technology that adds up to convenience, savings and security in banking for your business. Deposit checks 24/7/365 from the convenience of your office – no more going to the bank! Enjoy faster access to your funds, better documentation and streamlined accounting. All you need is an Internet connection – we provide the 8”x 8” scanner and get you all set up.

Free ATMs: We do not charge Enterprise Banking™ customers for using other banks’ ATMs, and we automatically reimburse you for other banks’ or ATM operators’ charges.

Business Loans & Lines of Credit: Chain Bridge Bank offers a full range of business loan products, including Working Capital Lines of Credit, Construction Lines, Term Loans, Overdraft Protection, Commercial Mortgages and Letters of Credit.

Online Banking: Our online banking product, *EasyLink*, provides customers with online account access, transaction origination, and complete account management capabilities. Initiate wire transfers and ACH transactions, pay bills, make Credit Line payments, and view check images and monthly statements online.

QuickBooks® Integration: Utilize *Calyx WebConnect*™ or *Calyx DirectConnect*™ to automatically download your bank account information into *QuickBooks*® or *Quicken*®. Automatically reconcile your banking data. No more manual data entry and no more duplicate transactions.

Payroll Processing: By partnering with Paychex®, we provide a comprehensive suite of payroll, payroll tax and employee pay services. Confidential, cost-effective payroll administration eliminates the tedious chore of payroll – before and after payday

Credit Card Services: Chain Bridge Bank offers a comprehensive bankcard program for both businesses and consumers, complete with a robust rewards program. The application process is easy and quick, and rates are extremely competitive.

Merchant Processing Services: We partner with TransFirst® to provide your business with a rich, fully featured program to meet your present and future electronic transaction processing needs.

Sweep Accounts: To help maximize earnings, we offer a “sweep” of idle funds into two short term investment alternatives. Our Cash Management Sweep account invests your funds in a Chain Bridge Bank money market deposit account with three tiers that pay higher rates for higher balances invested. We also offer the Chain Bridge Bank Repurchase Agreement Sweep program which sweeps your excess funds into an overnight investment that is fully collateralized by U.S. Government or Agency securities or municipal bonds.

Lockbox Services: Speed collection and streamline remittance processing for improved cashflow. Access the best political caging operation nationwide through our partnership with CMDI.

\$50 Million in FDIC Insurance: Through the CDARS® service, we provide up to \$50 million in FDIC protection on Certificates of Deposit investments. Enjoy one rate and one easy-to-read statement from Chain Bridge Bank summarizing all of your CD holdings.

For businesses, associations and individuals in the Washington metropolitan area, we're the new bank that's cutting edge, but slightly old-fashioned when it comes to personal customer service. Call us today on 703-748-2005 to arrange a meeting or visit us online at
